

Housing Options

The Loyola University Chicago Health Sciences Campus is not residential. Medical and graduate students arrange housing in nearby surrounding communities such as Forest Park, Oak Park, Riverside and Brookfield, and downtown Chicago. The Graduate Program Office will facilitate your search for housing and roommates by providing useful links to Chicago and suburban housing, as well as access to a Facebook page to communicate with fellow incoming graduate student as well as current students.

You may find the following links useful in your search for housing:
