

ASTRO 2015

Over 20 Loyola faculty and staff were selected to present their research to peers and colleagues at the 2015 American Society for Radiation Oncology (ASTRO) annual meeting in San Antonio, TX, October 18-21.

Resident physician **Dr. Alec Block** (PGY-4) with mentorship from **Dr. Matthew Harkenrider, Dr. Murat Surucu, and Dr. John Roeske** gave an oral presentation "Dual Energy Fluoroscopy for Markerless Motion Tracking of Lung Tumors in SBRT" at the Best in Physics section at 2015 ASTRO.

Dr. Block also was a recipient of the ASTRO Resident Clinical/Basic Science Research Award.

Other highlights include an oral presentation by **Dr. William Small** on "Multidisciplinary Management of Head and Neck and Gastrointestinal Cancer."

Stritch School of Medicine student **Andrew Woerner** with mentorship from **Dr. Roeske, Dr. Matthew Harkenrider, Dr. Surucu** presented "A Multi-Institutional Study to Assess Adherence to Lung SBRT Planning Goals."
