How to use Apple TV to display your iPad or iPhone

1. Turn TV on (Remote is attached with a Velcro strip to the back right side of the TV or by depressing the knob on the lower back right of the TV).

2. Make sure your Apple device is connected to Loyola’s wireless network. If your device is not on one of Loyola’s wireless networks, you will not be able to connect to AirPlay. You can do this by going into the settings button on your iPad or iPhone and selecting loyalty from the WiFi networks.

3. Once you are connected, swipe up from the bottom of your device with your finger. You will see the following picture:

   ![AirDrop and AirPlay icons](image)

   (Note: if you only see AirDrop you are not connected to Loyola’s wireless network. If you are connected and do not see it then try enabling your Bluetooth in the settings.)

4. Click on the AirPlay button and you will see the following menu with Apple TV replaced with the room number:

   ![AirPlay menu](image)

   Click on the name of the room and slide the Mirroring button to the right so there is green on the scroll bar.

5. Once you have moved the mirroring slider to the right, within 10 seconds the code should appear on the TV screen and a field to enter a code will appear on your device. Enter the code, and in a few moments your devices display will appear on the TV and you have properly connected.
How to use Apple TV to display your Mac Laptop

1. Turn TV on (Remote is attached with a Velcro strip to the back right side of the TV or by depressing the knob on the lower back right of the TV).

2. Make sure your Apple device is connected to Loyola’s wireless network. You can do this by going to the upper right corner of the screen and click on the Wireless icon, and select Loyola from the drop down list.

3. Once you are connected, you will see the picture of a box with a triangle overlapping the bottom line in the upper right corner next to the Wireless icon. Click on that, and select the room you are in. (Note: If you do not see your room then try enabling your Bluetooth in the settings which should be just to the left of the AirPlay icon.)

4. After you click on the room you will be prompted to enter a code. Within 10 seconds the code should appear on the TV screen.

5. Once you enter the code and click on OK the screen should be mirrored.
