A NOTE ABOUT HEALTH INSURANCE:

All Loyola students must be covered by health/hospitalization insurance. As such, all students are automatically enrolled in the university plan. But if you are already on another plan such as one provided by your spouse or your parents, you can and should waive out of the university plan.

If you anticipate waiving out of the school’s hospitalization plan, you must do so by October 1st. However, if you wait that long you must first pay for the university insurance and will not receive a credit on your account until you waive. If you intend to waive, we strongly suggest you do so immediately. Any student who fails to meet the deadline will automatically be enrolled in the university plan and MUST pay for it regardless of whether or not they have other insurance. This deadline is firm; there will be no exceptions or extensions.

If you decide you want the university plan, we strongly suggest you “Fast Track” into the system so that you will get your ID card in a couple of weeks rather than after the October 1st deadline.

The web address to waive or Fast Track is: www.luc.edu/locus, then go to “Campus Finances,” then to the “Student Health Insurance” link, and then select either “Waive” or “Fast Track.”

In order to learn more about the plan and its coverage, go to LUC.EDU/bursar/insurance.
